Il foglietto adesivo riposizionabile

Tecnologie di stampa

Il nostro studio grafico interno è a disposizione per sviluppare le vostre idee pensando anche ad offrire un servizio di grafica professionale di supporto per le vostre personalizzazioni. Su richiesta, sono disponibili le schede tecniche di ogni articolo per gestire la grafica in autonomia.
Prestampa: computer piattaforma Mac, Adobe Creative Clouds for teams con stampanti digitali profilate per prove grafiche. Stampa offset a bobina e a foglio, con lastre per offset da Computer To Plate automatico “no process” di ultima generazione che garantisce elevatissima qualità di stampa e rispetto dell’ambiente. Stampa digitale con plotter UV. Stampa serigrafica e tampografia.

Printing technologies

Our in-house graphic design department is available to develop your ideas and can also come up with your graphic design if you do not have one ready or to offer professional graphic design service to assist you with customisation. The technical data sheets for our articles are available on request, allowing you to create your custom graphic design independently.
Pre-print: computer with Mac platform, updated and profiled Adobe Illustrator and Photoshop programs, digital printers for trial graphic designs. Offset print to reel and to sheet, with latest generation automatic plates for offset from Computer To Plate “no process” that guarantees environmentally-friendly and very high printing quality. Digital print with UV plotter; screen printing; tampography.
